

**Remarks**

This Amendment is in response to the Office Action dated July 27, 2006 and is due on or before October 27, 2006.

Claims 2, 3, 8-13 and 17 are pending.

Applicant notes with appreciation the indication that Claims 2, 3, 8-10, 12 and 13 are allowed. Please note applicant has made modifications to allowable Claim 12; it is believed the prior art does not show a depression in the form of "one-half of a circle having rear edge." If there is an issue with Claim 12 please contact me at the number below. New Claim 17 follows allowed Claim 8.

The Office Action included a variety of claim objections and applicant has made a good-faith effort to correct these. Claim 11 was rejected under 35 U. S. C. § 112. Reconsideration of this rejection is respectfully requested. The detent (or tab) extends rearward from the material forming the depression or depressed portion of the bridge. This subject matter is included in at least paragraph 31 of the original specification. Paragraph 31 has also been corrected; it was noticed that the tab referred to was using both numeral 80 and 82.

In view of the aforementioned, it is respectfully urged that the present application be reconsidered, the claims allowed, and the case passed to issue.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Markell Seitzman", written in a cursive style.
